4 Health / Vk ft / Strength (Circle One)	4 Health / Vk ft / Strength (Circle One)
5	5
6	6
7	7
8	8

Alternative Requests (Please list):

Driver Education Placement

We place students in Driver Education based on birthday and age. Those students who qualified for the Summer Driver Education program through Tri-Valley have already been contacted by Mrs. Howse and enrolled in the class.

If your student's birthday falls between 03/02/2009 and 07/09/2009 your student has a spot in our Fall 2024 Drivers Education class. They will take their permit test in early September and need to hold their permit for 9 months to be eligible for a license. These students will complete the behind the wheel portion during the Spring 2025 semester. This is not a class listed on the student's schedule. They will miss class 8 times to complete their driving hours with Mr. McCormick.

If your student's birthday falls between 07/11/2009 and 09/29/2009 your student has a spot in our Spring 2024 Drivers Education class. They will take their permit test in January and need to hold their permit for 9 months to be eligible for a license. These students will complete the behind the wheel portion during the Fall 2025 semester. This is not a class listed on the student's schedule. They will miss class 8 times to complete their driving hours with Mr. McCormick. ****Students have to complete the behind the wheel portion of Drivers Education in order to obtain their Drivers License. These students will not be eligible for their license until November 2025.** If you want your student to receive their license on their birthday, we recommend you look for Drivers Education classes outside of TV. We apologize for this inconvenience, but wanted to give you advance notice so you can find a spot for your student elsewhere. The state requires a student to be 15 in order to take their permit test and take the class.
